

Wire Moulding Clips

Illustrations Are Actual Size

Dimensions of wire clips are critical for proper installation. When ordering, please provide top dimension of the clip that is attached to moulding and hole size in the panel.

We have been collecting and supplying the hobby for the past 40 years and have recently bought out two very large clip and fastener businesses. We now have one of the largest collection of obsolete clips and fasteners, convertible top fasteners, bumper bolts and other misc. hardware items for the late 1800's to the early 1980's. THESE ARE ALL N.O.S. PARTS and are in excellent condition. There is no way to list everything we now have.

Please, email pictures of items needed. These next 100 pages are just a sample of what we have available.
